REFMINT / WORKFLOW LAB

# From PDF to the right record

Three lookup routes. One unchanged invoice number.

DEMONSTRATION ONLY - NOT A TAX INVOICE

### 01 / EXISTING NUMBER

Invoice number: INV-2026-000042

### 02 / SIMPLE LOCAL ALIAS

Local alias: D1042

### 03 / CHECKSUMMED REFERENCE

RefMint reference: INVOICE_1PQP2-UYWU-CW

## Try all three in the local form

Start the repository demo with pnpm demo, then open:

http://127.0.0.1:4173/workflows/

Copy an identifier above into its matching field. Try a one-symbol change.

Compare found, invalid, ambiguous and inaccessible results.

---

Original number and regulated identifiers stay unchanged.
A checksum is public. It does not authorize access or prove authenticity.
Alpha API; frozen existing-ID v1 wire format. No human-entry study.
